

Welcome

American Society of Nepalese Engineers (ASNEng) was founded in September 2007 as an organization in the United States of America in order to provide a platform for individuals with Nepalese background/origin and friends of Nepal who are engineers and professionals in the closely related scientific and technical areas that lend support to any branches of engineering, to come together, exchange ideas, and support each other for their and the larger society's common good. It has come a long way by making significant accomplishments and achieving growth since then. Although the emphasis is on engineering, the goal of the Society is to be

inclusive and make it a common platform for engineers as well as those having professional training and qualifications in closely related technical and scientific fields. Kindly visit its Web site "www.ASNEng.org", to learn more about the Society and its objectives and purposes. If you are some one with Nepalese hereditary or friend of Nepal residing in or outside the U.S. and have expertise in engineering or a related scientific or technical field, you are invited (and encouraged) to join the Society, participate actively in its activities, and contribute to its mission.

About Us

The **American Society of Nepalese Engineers (ASNEng)** is a non-profit, U.S. Internal Revenue code tax exempt 501(3)(c) charitable, educational and scientific organization that provides a platform for people of Nepalese background, their friends, and others with interest in Nepal, who are engineers and professionals in the closely related scientific and technical areas, to come together, exchange ideas, and support each other for theirs and the larger society's common good. It strives to contribute to the progress of engineering and scientific education, research, training and practice for the benefit of humanity. ASNEng also aims at promoting engineering, scientific, and technological advancement in Nepal.

Objectives and Purposes

The main objective of the Society is to provide a common platform for people of Nepalese background and interest in Nepal, who have expertise and training in any engineering, scientific and technical areas to come together; and to facilitate for their increased contribution to the progress of engineering and scientific education, research, training, practice, and technology transfer for the benefit of humanity. The Society shall operate for scientific and engineering research and educational purposes. In furtherance of the foregoing objectives, the purposes of the Society shall be as follows:

- To bring together people of Nepalese heritage and culture and other interested individuals pursuing profession in engineering, or closely related scientific and technical areas, for exchange and sharing of research, educational and practice related knowledge and experience, professional interaction, and collaborative activities, and provide opportunities to enhance their technical and professional competence.
- To collect, disseminate and exchange technical knowledge through publications, conferences, seminars and workshops.
- To inspire and empower members to maintain a high standard of professional conduct, achievements accomplishment, and sense of pride.
- To advance the professional well-being, and success of its members.
- To foster the spirit of scientific and engineering research, education and life-long learning throughout its membership base.
- To foster collaboration between its members and researchers, academicians, and practitioners worldwide. .
- To recognize its members, other individuals and organizations for their outstanding contributions to the welfare of the society.
- To promote engineering, scientific, and technological advancement in Nepal.
- To provide advice to public, corporate and government policy making bodies in the areas of engineering and scientific development, as needed and appropriate, for the public benefit.

Are you interested?

Please visit **ASNEngr** website to find out more about this organization and

Make your valuable contribution by becoming a Member.

<http://www.ASNEngr.org>

You will also find an online form to submit your name and contact information for inclusion in the Society's mailing list.

Memberships

Membership Grades and Qualification.

Membership in the Society is open to all people with Nepalese background/connection and friends of Nepal who have degree in an engineering field or in a closely related /scientific/technical area that support and enhance the profession of engineering through education, practice, research, and service. The voting membership grades of the Society are Member, Senior Member, and Fellow. The non-voting membership grade of the Society is Student Member.

Student Member:

To be eligible for the grade of Student Member, an individual shall be enrolled at least half-time in a 4-year undergraduate program or at least half-time in a graduate program in any branch of engineering.

Member:

To be eligible for the grade of Member, an individual shall:

Criterion 1: have been graduated with a bachelor's degree in engineering or closely related scientific/technical field; OR.

Criterion 2: have been graduated with a graduate degree in engineering or closely related scientific/technical field; OR.

Criterion 3. have been graduated with an associate degree in engineering AND has 3 years of professional experience in engineering.

Senior, Fellow, Life Membership:

Please refer to bylaws document in our website for details.

Membership Fees

The annual dues payable by the Society membership shall be as follows:

Grade	Regular	Life
Student Members.	Free	N/A
Members.	\$20.00(USD)	\$500(USD)
Senior.	\$25.00(USD)	\$400(USD)
Fellows.	\$30.00 (USD)	\$300(USD)
