Press Release

American Society of Nepalese Engineers (ASNEng) Publishes Position Paper on Flood Management in Nepal

The American Society of Nepalese Engineers (ASNEng) is pleased to announce the official release of its position paper titled "Flood Preparedness, Mitigation, and Disaster Recovery in Nepal." This comprehensive document analyzes the conditions of flooding events in Nepal, exploring their causes and impacts. It also assesses the current methodologies for flood preparedness, mitigation, response, and disaster recovery, providing independent recommendations to enhance flood management practices in the country.

The position paper is organized into thirteen chapters that address key aspects of flood disaster management, including:

- Preparedness: Strategies for anticipating and mitigating flood risks.
- Mitigation/Response: Approaches for minimizing immediate impacts and improving response efforts.
- Recovery: Steps to rebuild and recover after flooding events.

ASNEng hopes this position paper will serve as a valuable resource for engineers, policymakers, and disaster management professionals who are engaged in strengthening flood resilience, mitigation and recovery efforts in Nepal.
